

PPD/MPR Players History Average List to form teams for 2012-2013 Season

The following pages contain the PPD/MPR's for everyone that has played 9 games or more for BMW Billiards. The list is alphabetical by last name.

Listed is your combined history average from last season when over 24 games has been played. If you have not played more then 24 games last season, then your highest *past* combined history average with over 24 games will be listed. If not played 24 games but played minimum of 9 games, then that average will be listed.

If your name is not on this list, but you have an average from another league, you must report that average. Failure to report an existing average could result in your expulsion from the league.

This list was compiled on 7/22/12. New summer players if your reported average is different the end of summer average call the league office for correct average to use. For players that played last season and summer season, if your end of summer average is drastically different from average listed please call the league office for an updated combined history average.

If you are a new player with no history average, your beginning average to determine your teams PPD/MPR value will be 17.00 PPD/1.70 MPR for MEN and a 14.00 PPD/1.40 MPR for WOMEN.

The league office will assign PPD/MPR values in the following situations:

1) Players of "known ability", 2) Any steel tip throwers.

When forming a team, no player on the team can have a PPD that is more then 2.00 above the cap limit for the leagues that have a 17.50, 18.50, 19.00, 19.50 cap limit. Also, no player on a team can have a PPD that is more then 3.00 above the cap limit for 20.00, and 22.00, 22.50 leagues. (Example: In a 18.50 cap league no player can be above a 20.50 PPD or in a 20.00 cap league no player can be above a 23.00 PPD.) There is no restrictions on a players PPD for the No Cap, 23.50, 26.00, 27.00 and above leagues.

To calculate you teams PPD/MPR value take the 4 people on the team and add their PPD/MPR together and then divide by 4. If you have more then 4 regular players on your team, then take the 4 highest individual PPD/MPR's to calculate team PPD/MPR value.

On a doubles team divide team total by 2. And on the Triples league divide team total by 3.

It is the teams responsibility to make sure their team and all players are legal for the league in which they want to play. Any regular player can report an illegal team or player. Once the office is made aware of the illegal team/player, the team will be subject to forfeiting all games won when the illegal player participated.

Sub rule:

If a player has an average of 0.00—18.99 can add 1.00 PPD/.20 MPR to average to find a sub.

If a players has an average of 19.00 and above—sub must be of same average or lower.

If you have any questions call Judy Mehle —cell #970-391-7664.

Player	PPD	MPR
