

## **BMW Billiards Players History Average List to be used for the 2012-2013 season**

The following pages contain the averages for everyone that has played 3 weeks or more for BMW Billiards from the 2011-2012 league season.

If you have played in multiple leagues, your **highest most established** history average will be listed.

All regular and sub players will use their average from last season for the first 3 weeks of play. On the fourth week they will use the average that they have established in the first 3 weeks. (Exhibition night to be counted as 1 week) Lower division teams will not spot higher division teams any handicap.

New players with no history average will shoot as highest average, but no handicap will be given. They cross out with opposing high shooter.

It is teams responsibility to make sure they are using the correct averages. It is not the responsibility of the league office to check any handicaps.

It is both captains responsibility to make sure handicap and lineup are correct.  
**Once play starts, handicap can not be adjusted.**

Maximum handicap to be given is 3 per person, 15 total per round in 5 person (15/20/25) game format, 12 total per round in 4 person 16 game format, 9 total per round in 3 person formats. The maximum spot allowed is 3 per person, no matter how large the difference in averages.

## For 2012-2013 Season

Name	AVE
